- 1)
- 2) bourdon dot test: i missed a group of 4 in the practice which may have made me more alert.
- 3) 25 per line
- 4) made marks on most sheets after 4 and 8 lines so i knew where i was up to
- 5) closed eyes for 8 seconds
- 6) TEA-Occ:
  - a. listening to tones and counting the low tones (elevator from ground floor ).
  - b. B and C printed on a3 and had four columns. looking for plumbers then restaurants where both symbols were the same . 45 seconds for part b.
  - c. was extremely shocked how fast time went
  - d. realised 11 seconds per column
  - e. did less than 75% of part B
  - f. listening to tones on c at same time
  - g. mostly finished part C but missed one
- 7) TRP test:
  - a. passage about brake systems on trains and different colours, had 18 multi choice questions (i had extra time)
  - b. dial checking test choose lowest segment and then lowest number first. only did half of the questions and was shocked how fast the time went.
- 8) Break: nespresso machine didn't work and so i only had one coffee before going. didn't go to toilet.
- 9) man almost didn't allow me the clock but did. had ba
- 10) entered ID number
- 11) pressed non-functional buttons
- 12) WAFV screen very bright. very difficult to distinguish the grey from the darker grey. started 10 seconds after the rest.
- 13) Said 'obtaining an overview'.
- 14) Traffic test. pictures visible less than a second. tried to look for cyclists and traffic lights but couldn't get the words out.
- 15) tried eyes close to screen.
- 16) about 20 pictures.
- 17) 2HAND. Assessor told me not to retry the practice. Only one run pattern which done 10 times.
- 18) to hold shape in position joysticks stay
- 19) Makes tone when you go outside the track.
- 20)
- 21) ate half lunch only in plastic box after the 2<sup>nd</sup> set of (computerised) tests
- 22) woman teased me.
- 23) did visual search exercise. Read instructions very carefully.
- 24) Noticed pattern
- 25) lots of difficulty with last part of the combined (last) part, in which trains keep making errors. Very important too know train more important .
- 26) they postponed the MMI due to the testing taking longer than they anticipated and because one of the tester's laptops stopped working
- 27) we finished at 2.30
- 28) David Brooks and Harley Gale
- 29)
