

## **Welcome to the How2become Hand Co-ordination testing practice aid.**

Included in this tool are 10 different stages of varied difficulty, the aim of this tool is to help you prepare for the Hand Co-Ordination test. The goal of the game is to complete 2 laps of moving a ball around the circuit, engaging the X and Y markers, within an allotted time to enable you to move on to the next level.

If at any time the ball moves outside the area of the track, this will speed up the timer making it difficult to achieve a score high enough to move on to the next level.

### **Score**

You must score at least 43000 to move to the next level

### **Controls**

This practice aid makes use of the keyboard function.

For horizontal movement, please use the 'Z' key for Left, and the 'C' key for Right

For Vertical movement, please use the  key for upwards movement and the  key for downwards movement.
